

**THE BETHANY PRE AND PRIMARY SCHOOL**  
**BABY CLASS TERMINAL REPORT JUNE 2021**  
**CLASS TEACHER'S NAME: MISS TABU MAHUMA MOSHI**

**Introduction**

Hello Mrs Zephaniah, I would like to thank GOD for his mercy and love, thus it's by his love that has made us to reach this term. I hope you are good and keeping up with great works of fulfilling the Bethany vision. This report consists of the following areas due to the learning progress of the Baby class.

.The use of language,

.The quality of teaching and learning activities,

.Achievements of pupils,

.Area of development,

Appreciation

**The Use of Language**

Pupils are using English language as a tool for communication although they have not yet mastered it, but they are trying for their best effort to make sure are speaking English. For instance they are able to report for something happened, to ask for their needs e.g. toilet, cards, games and other fun. Although there is good progress on language, but there are new pupils who are still struggling on speaking and understanding the language, because the time

they joined at school we were already started the learning progress. These pupils are; **Vanelissa Msese Emmanuel** and **Stanford Daudi Stephano**.

### **The Quality of Teaching and Learning Activities**

The quality of teaching and learning progress in baby class, we were done through fun and games, although there were some challenges in the following areas: identifying the vowels, identifying the shapes and identifying the pictures.

### **Achievements of Pupils**

Baby class pupils have improved compared to the last term, due to the great efforts shown by the teachers to make sure that every pupil should be able to develop according to his or her ability on learning progress. For instance there are most pupils who have done the great job in this term, these pupils are; Shigongo Amos Kagito, Edson Emmanuel Helman, Regina Emmanuel Kulwa, Davina Jumanne Mtani, Edwin Emmanuel Helman and Richard Kapiligi Sadiki. Although there are some pupils who are still struggling like Janeth Lucas Joseph, Lucia Sylvester Bahati, Domitila Sylvester Bahati, Joyce James Penzeni.

In other way these pupils need strictly supervision from both parents and the respective class teacher.

### **Areas of Development**

Baby class pupils need to develop in areas such as identifying, reading and writing all the vowels, as well as letters or Alphabets, identifying, counting and writing numbers from 1-10. All these can be achieved through the encouragement and cooperation from both class teacher and parents.

### **Appreciation**

I would like to thank our supporters from UK, the head teacher, deputy head teacher and all the staff members at The Bethany pre and primary school for their great job, cooperation and love to everyone; this shows that **we are all in it together**. May Almighty GOD bless all the Bethany workers. Thanks.

Here is the baby class picture together.
